

Dear Live Nation Team,

I'm a videographer and photographer from Toronto with a passion for combining music and videography. I've worked with several bands such as The Beaches and am working with the Ever After Music Festival team this upcoming weekend.

I'd like to volunteer my services for the Dreams Music Festival. I am very confident I can be of major help providing useful content for promotions and other applications. For me, I'd like to volunteer because Dreams is in my home city, the lineup is amazing this year, and I'd like to get more exposure working with bigger shows and productions. If given the chance, I won't disappoint in the quality of content and would deliver whatever media is needed.

Feel free to check out some of my previous work at either [mishakruty.com](http://mishakruty.com) or my instagram @mishadventure.

Thanks for your time and consideration,

Misha Kruty
